

# ET Summit 2019

Presented by

# Bonneville Power Administration

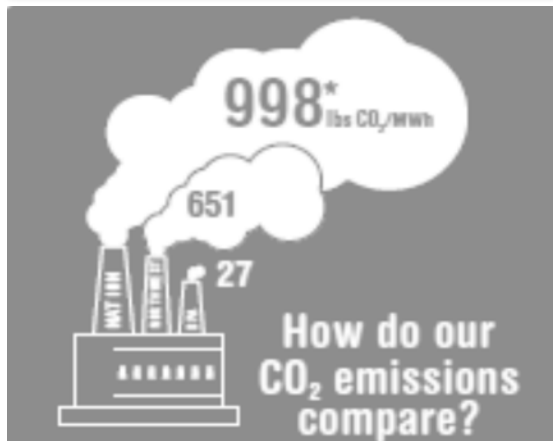

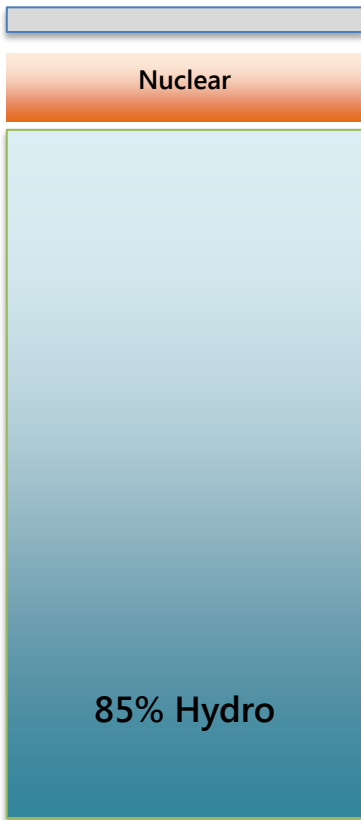

Keshmira McVey

Program Manager, Emerging Technologies

Bonneville Power Administration

## 31 Dams

 22,000 MW

## *MODERNIZE ASSETS & OPERATIONS TO LEVERAGE & ENABLE INDUSTRY CHANGE*

Increase visibility of loads, resources & flows increasing reliability & efficiency of existing transmission system assets

Support more reliable, flexible & efficient systems that create new market opportunities for federal hydro

## *IMPROVE FINANCIAL HEALTH*

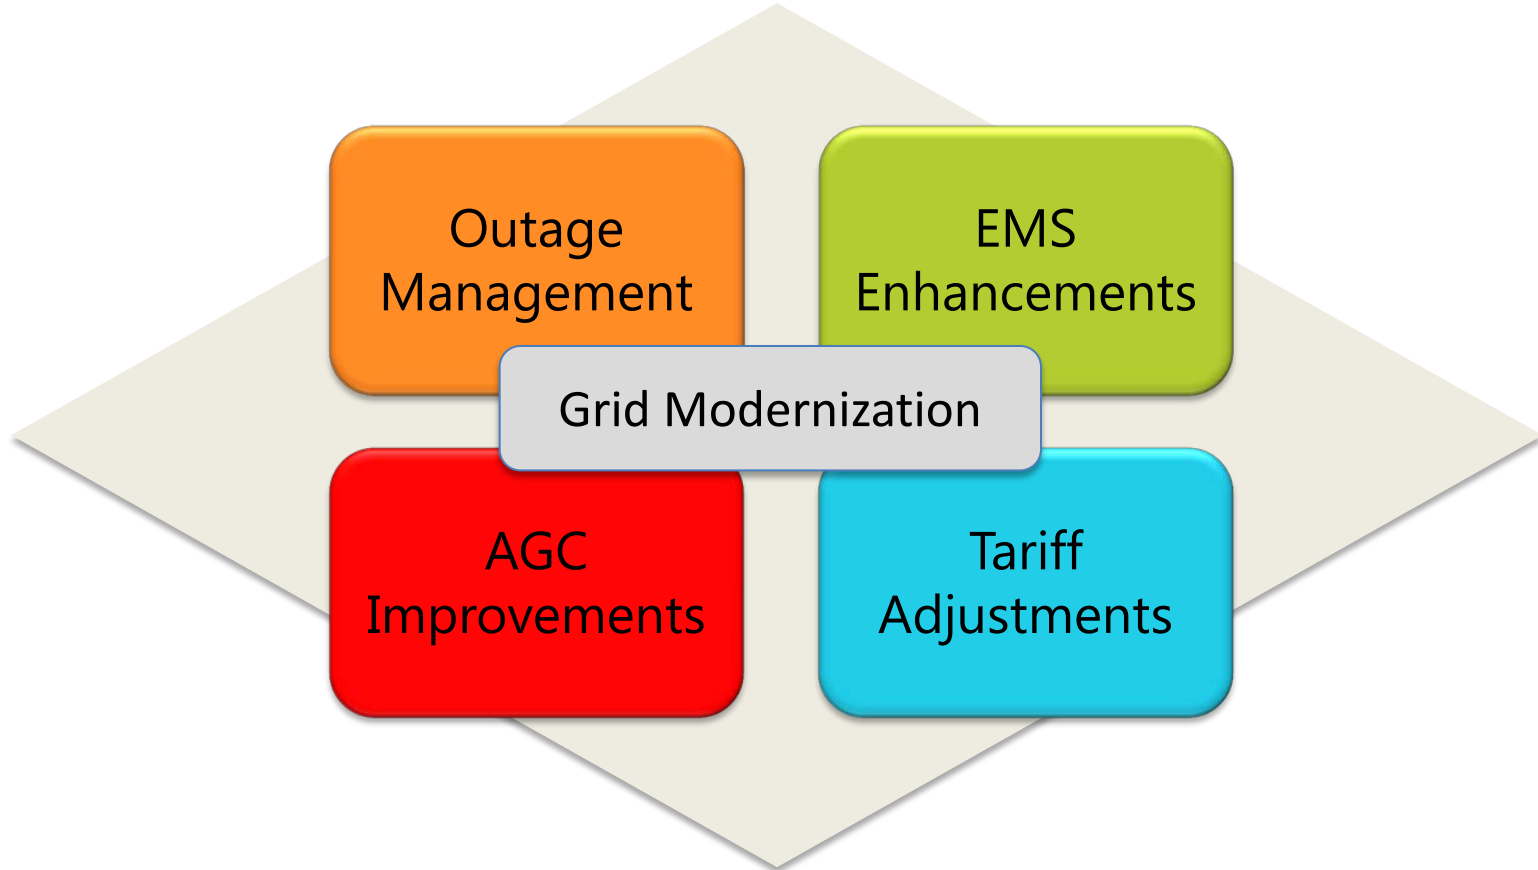

Low rates, high reliability and responsible environmental stewardship are mission essential to provide tremendous value to the Pacific Northwest

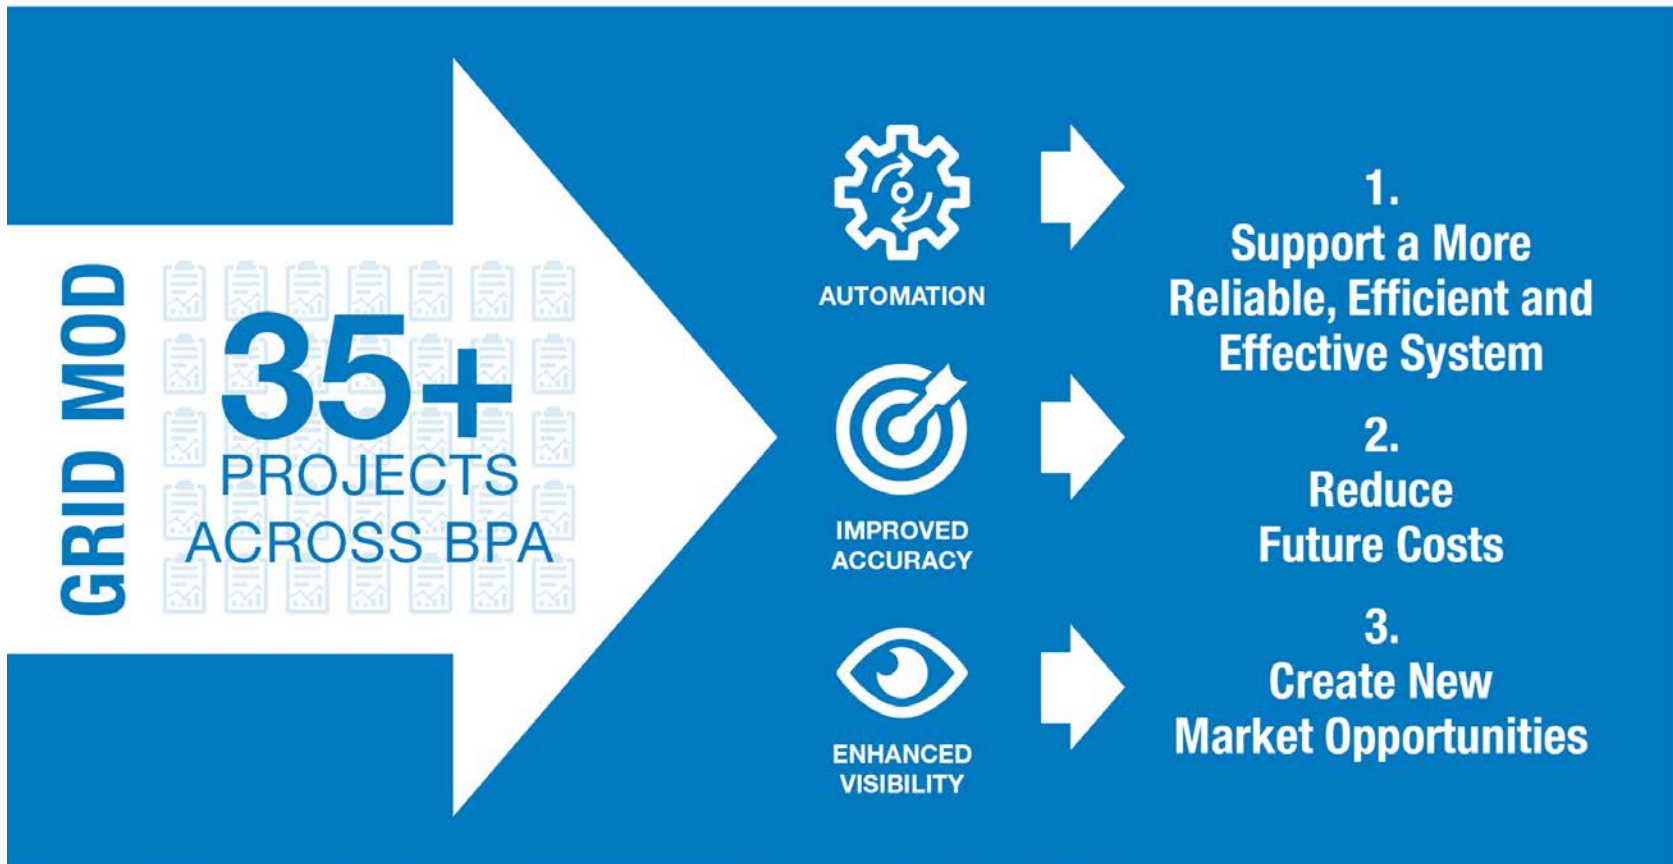

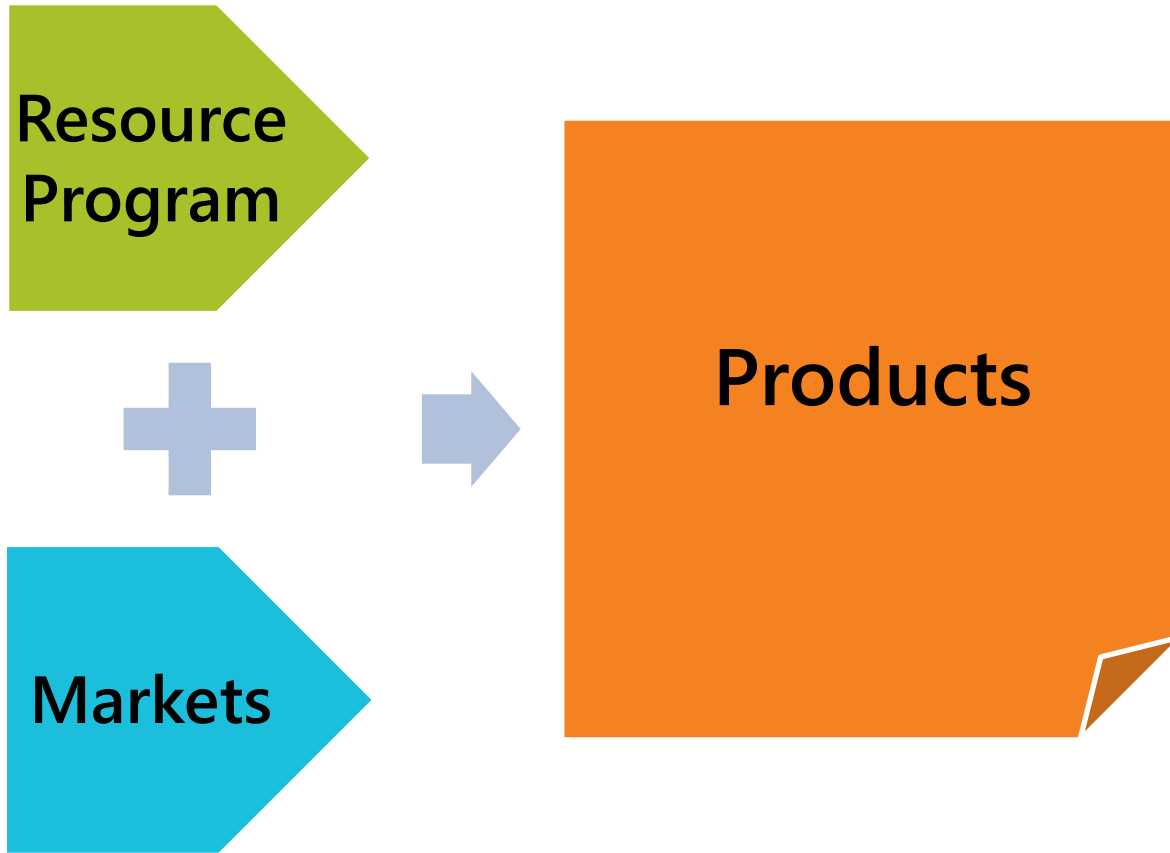

## *COMPETITIVE PRODUCTS AND SERVICES*

Sales to markets that seek low-carbon, clean, flexible hydro capacity
